Subject: **Permit No. SOPC00021**
Bowling Poultry
Shelbyville, Bedford County, Tennessee

Dear Mr. Bowling:

On November 21, 2013, the Division of Water Resources (division) received your revised Comprehensive Nutrient Management Plan (CNMP) from the Tennessee Department of Agriculture (TDA). TDA reviewed and approved your CNMP, which had been revised to change the CNMP coverage dates, include new soil test and manure analysis data, and provide recalculated application rates. After receiving TDA's approval of your CNMP, the division reviewed your permit application and found that your farm had previously received permit coverage on January 21, 2011. The division has determined that revisions to your notice of coverage (NOC) are not necessary and it remains in effect. Please note that your permit coverage will expire on May 31, 2015. By copy of this letter the division is notifying you that your revised CNMP has been approved; you should now follow your revised CNMP and discontinue using any previous versions of your CNMP.

If you have questions, please contact the Columbia Environmental Field Office at 1-888-891-TDEC; or, at this office, please contact Ms. Erin O'Brien at (615) 253-2245 or by E-mail at Erin.O'Brien@tn.gov.

Sincerely,

Brad C. Harris, P.E.
Manager, Land-Based Systems
